# Guide on Advancing Fiscal Transparency for Development

The Guide consists of 5 modules.

# Module 1: An introduction to fiscal transparency

- What is fiscal transparency?
- Why does it matter as part of good governance?
- What are its benefits?
- How does one navigate the multiple norms and standards on fiscal transparency?

## Module 2: External Actors in Fiscal Transparency, Public Participation, and Accountability

- Who are the key actors for fiscal transparency?
- What is the role of actors outside the executive?
- How can these actors contribute to and use fiscal transparency?
- Public participation up close: what it means, GIFT principles on public participation, other associated norms & standards, and mechanisms

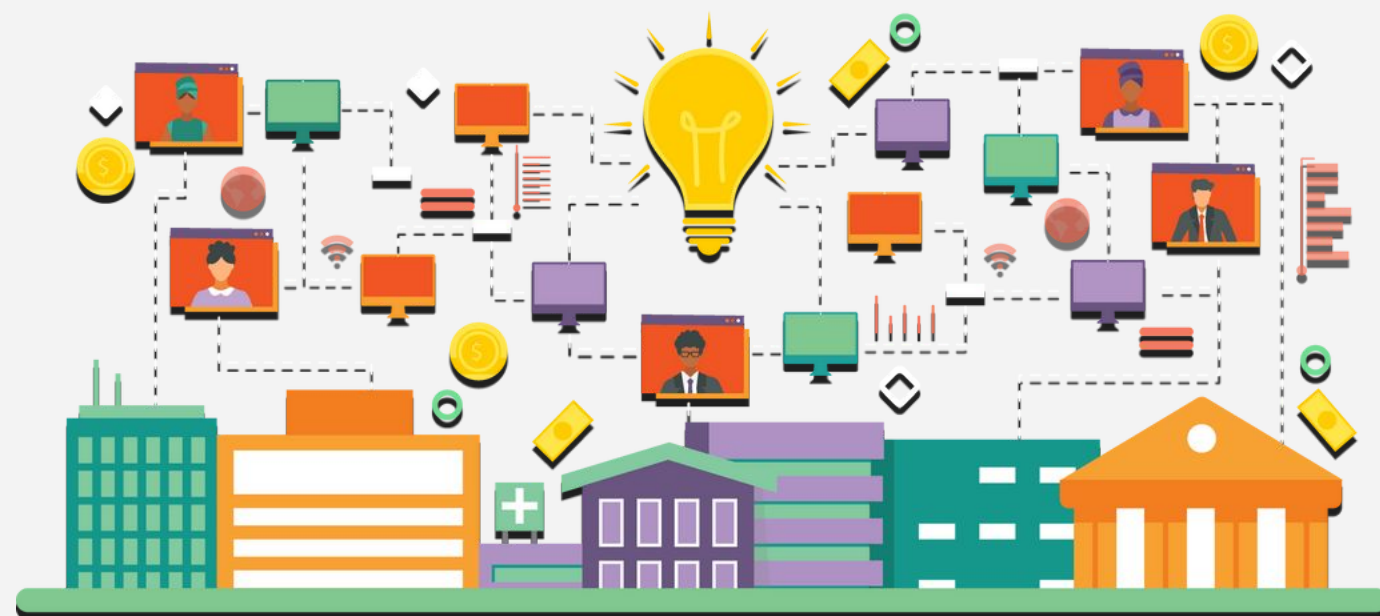

# Module 3: Fiscal Transparency Information Disclosures and Standards

- What is the executive's role in advancing fiscal transparency for development?
- What enables it to fulfil its role?
- What do international norms and standards require pertaining to the contents and quality of key budget related publications?
- What does revenue transparency mean?
- How do different fiscal transparency standard setters assess levels of fiscal transparency?

## Module 4: Internal Systems and Digital Tools for Better Implementation

- Is it necessary to publish data beyond documents?
- How do digital tools assist in elevating levels of fiscal transparency?
- What is the role of financial management information systems, open data, and other digital tools in facilitating improved levels of fiscal transparency?
- What digital tools and guidance material are available to assist practitioners in doing this?

## Module 5: Actions towards advancing fiscal transparency (reforms and other measures)

- What are the current global levels and trends in fiscal transparency?
- What are common obstacles to obtaining adequate levels of fiscal transparency?
- What are common triggers for advancements in fiscal transparency?
- What are the practical actions/reforms that be taken to overcome obstacles and to take advantage of opportunities to establish/enhance fiscal transparency, towards institutionalizing it?
